

The PNS Annual Meeting has established the reputation of being the largest Peripheral Nerve Meeting globally and is the place to learn about the latest international research across specialties in peripheral neuropathy. Our Annual Meeting environment is designed to be intimate. We hope you plan to participate in educational sessions and various networking opportunities, including our receptions: Welcome & Junior Reception, the new Wine & Cheese Poster Hall Reception, and Closing Reception.

PLEASE NOTE: Final exhibit hall floor plan subject to change based on final attendance and exhibit participation.
